# Access, simplified

LastPass Enterprise is the only all-in-one single sign-on and password manager solution, made simple and secure for SMBs.

The convenience users expect.

Store everything in one place
One easy place to access everything, from apps to web logins.

Remember one password
Rather than sign up with a separate master password, employees can log in to LastPass with AD credentials.

Let LastPass connect you
Capture and fill credentials or SSO to cloud, mobile, and on-prem apps - LastPass connects to everything.

Organize work and personal
Log in throughout the day, and sort passwords to the right place automatically.

Generate strong passwords
Let LastPass create long passwords for employees, so every web service is protected by a unique password.

Share passwords conveniently
Eliminate shared spreadsheets with easy – and secure – password sharing that keeps everyone up to date.

Give universal access
LastPass works everywhere employees do, with real-time sync for all desktops, laptops, mobile and web.

The simplified control businesses need.

Centralize admin control
Centralize deployment and management of LastPass from a secure admin portal for SSO and password management.

All-in-one solution
Deploy cloud apps company-wide while employees have access to all apps and passwords from one vault.

Simplify with integrations
1,200+ SSO integrations combine with an industry leading password manager to streamline deployment of cloud, mobile, legacy, and on-prem apps.

Automate with user directories
Automate user onboarding and removal by syncing with Microsoft AD, Azure AD, Okta, OneLogin or a custom API.

Configure custom policies
Get flexible, granular control with 100+ policies at the device, user, group, and organizational level.

Gain in-depth reporting
Build compliance and maintain accountability with detailed reporting logs that give actionable insights.

Self-service success
A successful implementation depends on a simple deployment and helpful, self-guided resources.
